\*30-Day SEC Yield is based on the most recent 30-day period and reflects the investment income earned after deducting a fund's expenses for the period. This yield does not necessarily reflect the yield that an investor will receive. Distributions may vary from time to time. A weighted harmonic average is used to calculate this metric. Price/Book Ratio is the price of a security divided by the book value per share of the security. Price/Earnings Ratio is the price of a security divided by the last twelve months earnings per share of the security.

†Index data prior to September 24, 2012 reflects that of the S-Network Global Gaming Index (WAGRT). From September 24, 2012, forward, the index data reflects that of the Fund's underlying index, MVIS Global Gaming Index (MVBJKTR). Index history which includes periods prior to September 24, 2012 reflects a blend of the performance of WAGRT and MVAFKTR and is not intended for third party use.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Please call 800.826.2333 or visit [vaneck.com](http://vaneck.com) for performance current to the most recent month ended.

The "Net Asset Value" (NAV) of a Fund is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF 's intraday trading value. Investors should not expect to buy or sell shares at NAV.
