Effective August 18, 2016, BUZZ Holdings ULC implemented changes to the BUZZ NextGen AI US Sentiment Leaders Index construction rules. The index constituent count was increased from 25 to 75 stocks and the maximum constituent weight was reduced from 15% to 3%. These changes may result in more a diversified exposure to index constituents than under the rules in effect prior to this date. Past performance is no guarantee of future results.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Please call 800.826.2333 or visit vaneck.com for performance current to the most recent month ended.

The "Net Asset Value" (NAV) of a VanEck Exchange Traded Fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. VanEck ETF investors should not expect to buy or sell shares at NAV.

Index returns are not Fund returns and do not reflect any management fees or brokerage expenses. Certain indices may take into account withholding taxes. Investors can not invest directly in the Index. Index returns assume that dividends have been reinvested.

An investment in the Fund may be subject to risks which include, among others, risks related to social media analytics, equity securities, medium-capitalization companies, information technology sector, communication services sector, consumer discretionary sector, financials sector, market, operational, high portfolio turnover, index tracking, authorized participant concentration, no guarantee of active trading market, trading issues, passive management, fund shares trading, premium/discount risk and liquidity of fund shares, non-diversified and index-related concentration risks, all of which may adversely affect the Fund. Medium-capitalization companies may be subject to elevated risks.

Investing in companies based on social media analytics involves the potential risk of market manipulation because social media posts may be made with an intent to inflate, or otherwise manipulate, the public perception of a company stock or other investment. Although the Sentiment Leaders Index provider attempts to mitigate the potential risk of such manipulation by employing screens to identify posts which may be computer generated or deceptive and by employing market capitalization and trading volume criteria to remove companies which may be more likely targets for such manipulation, there is no guarantee that the Sentiment Leaders Index's model will successfully reduce such risk. Furthermore, text and sentiment analysis of social media postings may prove inaccurate in predicting a company's stock performance.

Investing involves substantial risk and high volatility, including possible loss of principal. An investor should consider the investment objective, risks, charges and expenses of the Fund carefully before investing. To obtain a prospectus and summary prospectus, which contains this and other information, call 800.826.2333 or visit vaneck.com. Please read the prospectus and summary prospectus carefully before investing.
